

A Webinar on Autonomous UAVs'

Title: Autonomous UAVs

Date: 26-11-2022
Time 2:00 PM to 5:00 PM
Sponsored by : LBRCE
Resource Person: Mr.N.Bala Subrahmanyam
Systems Engineer
TCS, Hyderabad.

Total No. of participants: 123

Target Audience: B.Tech Students

Objective of the Event: Advanced knowledge of Drones

Outcome of the Event: Complete analysis of Different types of Drones.

Description of the Event:

Resource Person: Mr. N. Bala Subrahmanyam

The Centre For Innovation, Incubation and Entrepreneurship has organized webinar on "Autonomous UAVs" on 26.11.22 at 2 PM. The programme (seminar) is organized in EEE Seminar Hall.

As the program began, Dr. T. Rajasekhar delivered a warm welcome speech to all the students in attendance. He expressed his excitement and enthusiasm for the event and urged the students to take full advantage of the opportunities presented to them.

Following Dr. Rajasekhar's speech, the Convenor of the event, Dr. A. Narendra Babu, took the stage to discuss the various activities and initiatives of the Incubation Center. He stressed the importance of innovation and entrepreneurship, and how these qualities are essential for achieving success in today's fast-paced world.

Dr. Babu also highlighted the significance of Drone Technology and its growing impact on various industries. He spoke about the numerous opportunities available in this field and how it can benefit aspiring entrepreneurs. Next, Dr. Babu introduced the resource person for the event, Mr. Bala Subrahmanyam. He shared Mr. Subrahmanyam's

achievements and expertise with the audience, emphasizing his vast experience in the field of Drone Technology.

Finally, Dr. Babu handed over the session to Mr. Subrahmanyam, who proceeded to share his knowledge and insights on the subject. The students listened intently as he discussed the latest developments in Drone Technology and the potential it holds for various industries. The resource person highlighted the Drones wide range of applications, including military, civilian, and commercial purposes. In the military, drones are used for surveillance, reconnaissance, and targeted strikes. In the civilian and commercial sectors, drones are used for aerial photography and videography, search and rescue operations, agriculture, delivery services, and more.

Overall, the event was a great success, and the students left with a deeper understanding of the importance of innovation and entrepreneurship in today's world, as well as the growing impact of Drone Technology on various industries.

The programme has ended with a vote of thanks.
