

EIE PEOs EMPLOYER SURVEY FORM

Programme Educational Objectives (PEOs) :

* Required

PEO1: Successfully utilize engineering and non-engineering principles for design and analysis as needed by their field

PEO2: Life-long learner through the successful completion of advanced degree(s), continuing education, or other professional development.

PEO3: Exhibit effective communication, teamwork, leadership skills and ethical behaviour as standard practice in the workplace

The Electronics & Instrumentation Engineering programme implements an outcome based programme assessment to enable continuous quality improvement. As a part of the programme, we are surveying graduating students to find ways of improving our PEOs. Your feedback will go a long way in helping us determine how well we are doing and what we can do to better serve our students, alumni, and the engineering community.

Please tick a grade (using the following grade scales (5, 4, 3, 2, 1) to indicate your assessment of the students as per the statements given below.

1. **Our graduates' ability to apply the principles of Basic Science, Mathematics and Computer science to solve real world problems. ***

Mark only one oval.

- Excellent
- Very Good
- Good
- Average
- Poor

2. 2.Our graduates' ability to develop solutions for real time applications under given constraints. **Mark only one oval.*

- Excellent
