1.	Essay Writing: Topic is “Swachh Bharat Abhiyan ”	All Students

Some of the Points written by the students:

Swachh Bharat Abhiyan is one of the most significant and popular missions to have taken place in India. Swachh Bharat Abhiyan translates to Clean India Mission.

This drive was formulated to cover all the cities and towns of India to make them clean. This campaign was administered by the Indian government and was introduced by the Prime Minister, Narendra Modi.

It was launched on 2nd October in order to honor Mahatma Gandhi's vision of a Clean India.

The cleanliness campaign of Swachh Bharat Abhiyan was run on a national level and encompassed all the towns, rural and urban.

It served as a great initiative in making people aware of the importance of cleanliness.

1.	Debate: Topic given to the students is “Which one is more important Creativity or Knowledge”	All students participated

Some of the Points Discussed by the students:

- (i) “Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand.”
- (ii) Knowledge, no doubt has a role to play. Without knowledge, creativity does not have any substance to work with. Creativity puts together already available information in a manner to come up with new solutions to new problems.
- (iii) Knowledge is the information that we have through the experiences of our predecessors and our own at present. Information of all things discovered or experienced is knowledge. But, creativity is needed to put that information together to come up with new results and solutions.

1.	JAM: Topic given “Women Empowerment”.	21761A5601-5610

Key points:

1. Women's empowerment may be defined in several ways, including accepting women's viewpoints, making an effort to seek them and raising the status of women through education, awareness, literacy, and training.
2. Women's empowerment has five components: women's sense of self-worth; their right to have and to determine choices; their right to have access to opportunities and resources; their right to have power to control their own lives, both within and outside the home; and their ability to influence the direction of social
3. it is possible to help women defend themselves against these injustices with different kinds of empowerment, such as social, economic, educational, political, and psychological.

1.	JAM : Topic given “Hard Work Vs Smart Work”.	21761A5611-5620

Some of the points spoken by the students:

- 1.Hard work and smart work are both essential to bring effectiveness and efficiency to a task.
- 2.While hard work makes sure that we are putting in the hours needed to accomplish certain things within time, smart work focuses on bifurcating the quintessential factors like who is the best person to do a particular task, when is the right time for doing it and what kind of hurdles we can anticipate.
- 3.So, when blended, we can find the best way to complete a set task within time and ensure its optimum quality.”

Semester: VI

A.Y: 2021-22

Date: 16-5-2022

S.No	Name of Event and Description of Event	List of Participants
1.	Activity conducted is SEMINAR on the topic of “Goal setting for personal and academic success”.	20761A5621, 5622, 5623, 5624-5630

Some of the points discussed by the students during seminar

(i) **Goals should be realistic.** It's good to dream and to challenge yourself, but your goals should relate to your personal strengths and abilities.

(ii) **Goals should be specific.** Don't write, “I will become a great musician”; instead, write, “I will finish my music degree and be employed in a symphony orchestra.”

(iii) **Goals should have a time frame.** You won't feel very motivated if your goal is vaguely “to finish university someday.” If you're realistic and specific in your goals, you should also be able to project a time frame for reaching the goal.

(iv) **You should really want to reach the goal.** We're willing to work hard to reach goals we really care about, but we're likely to give up when we encounter obstacles if we don't feel strongly about a goal. If you're doing something only because your parents or someone else wants you to, then it's not your own personal goal—and you may have some more thinking to do about your life.

1.	Essay Writing: Topic is “Dr.Vikram Ambalal Sarabhai” who was the father of the Indian Space Program.	All Students

Highlights of Dr.Vikram Ambalal Sarabhai:

1. Dr. Vikram Ambalal Sarabhai was an Indian physicist and astronomer who initiated space research and helped develop nuclear power in India.
2. He was honoured with Padma Bhushan in 1966 and the Padma Vibhushan in 1972.
3. The establishment of the Indian Space Research Organisation (ISRO) was one of his greatest achievements. He successfully convinced the government of the importance of a space programme for a developing country like India after the Russian Sputnik launch. Dr. Vikram Sarabhai emphasized the importance of a space program.

1.	Debate: Topic given to the students is “Has email improved communication”.	21761A5611-5640

Some of the points discussed during debate are as follows:

1. Email is a free tool. Once you are online, there is no further expense that you need to spend on in order to send and receive messages.
2. Email is quick. Once you have finished composing a message, sending it is as simple as clicking a button. Email, especially if an email system is integrated into the network, is sent, delivered, and read almost immediately.
3. Email is simple. It is easy to use. Once your account is set up, composing, sending, and receiving messages is simple. Also, email allows for the easy and quick access of information and contacts.
4. Email allows for easy referencing. Messages that have been sent and received can be stored and searched through safely and easily. It is a lot easier to go through old email messages rather than old notes written on paper.

1.	Seminar on the topic “Time management”.	All students

Some of the points spoken by the students are as follows:

1. It may take a bit of time and a bit of experimentation to find exactly what suits your personality and preferred method of working.
2. But the key is to make sure that you actually adopt a strategy and don't just try and wing it all the time.
3. Everyone has the same finite 24 hours each day. We can't magically produce extra hours out of thin air.
4. But what we can do, is implement some methods to become more effective at managing that time and more productive in the way we use it.

1.	Group Discussion: Topic given to the students is “Use of technology in agriculture”.	All the students participated

Some of the points discussed by the students are as follows: _

- 1.Drones: Drones equipped with sensors can monitor crop health, assess soil conditions, and detect diseases.
2. Robotics: Robotics is another important development in agricultural technology. Robots can perform tasks like planting, weeding, and harvesting. This helps reduce labour costs and allows farmers to work more efficiently.
3. Precision agriculture helps farmers manage their crops more effectively. It involves the use of GPS and other technologies to track soil and crop conditions, as well as water and fertiliser use. This allows farmers to reduce inputs and maximise yields, helping them save money and resources.
