1.	Group Discussion: Topic given to the students is “Impact of 5g technology”.	All the students participated

Some of the Points discussed by the students:

- (i) 5G operates more quickly on phones and other devices than 4G and 4G LTE.
- (ii) The capacity of 5G could be more than 100 times that of 4G.
- (iii) One of 5G's main advantages is that it increases bandwidth, enabling the fastest possible data transmission.
- (iv) Drones and sensors can all communicate with each other using 5G technology. It offers strategies to accelerate IoT adoption, enabling industries to increase productivity and do other things.

1.	Essay Writing: Topic is “Pollution due to Urbanization”.	All Students

Some of the Points written by the students:

(i) Urbanisation is a great concept which is required to develop any country. It refers to the concept of urbanising remote areas by building infrastructure which then brings about development.

(ii) Infrastructure refers to all the buildings and institutions which are necessary for economic development to take place in an area.

(iii) For example, educational institutions like schools, colleges, vocational learning centres are part of the infrastructure. Healthcare facilities such as hospitals and clinics, employment opportunities, food security, etc. are also part of the infrastructure of a country.

(iv) All people around the world should have access to proper healthcare, education, sanitation, nourishment and safety, and urbanisation is how we can help achieve this goal.

1.	Debate: Topic given to the students is “Which one is more important Creativity or Knowledge”	All students participated

Some of the Points Discussed by the students:

(i) Albert Einstein said “Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand.”

(ii) Knowledge, no doubt has a role to play. Without knowledge, creativity does not have any substance to work with. Creativity puts together already available information in a manner to come up with new solutions to new problems.

(iii) Knowledge is the information that we have through the experiences of our predecessors and our own at present. Information of all things discovered or experienced is knowledge. But, creativity is needed to put that information together to come up with new results and solutions.

1.	Activity given to the students is Creating Writing on the topic “To What Extent are Electric Vehicles a Solution to Global Pollution”	All the students

Some of the Points Written by the students:

(i) Our society has long considered what we can do to improve the society we live in, to make it better for future generations to come. (ii) . One aspect that must be considered is the level of pollution that occurs throughout our country and the world through ways in which that pollution level can be reduced.

(iii) The most popular method that is presented to reduce pollution is by increasing the number of electric cars on the road in hope to reduce the number of nasty polluting petrol and diesel and thereby reducing the number of toxins released from traditional cars.

(iv) Electric cars run off of electricity and therefore do not require diesel or petrol and plus we don't know how much more we have left of these fuels. Because if these fuels are not being mined, this reduces the number of gasses and other pollution

1.	Importance of “74 th Republic Day in our country” going to be celebrated on 26-1-2023	All Students

Some of the Key Points to be memorized on this auspicious day:

1. Republic Day is celebrated every year on the 26th of January, this year India will celebrate its 74th Republic Day.
2. As a tribute to India, on Republic Day ceremonial parades take place at the Rajpath. The celebration begins from the gates of Rashtrapati Bhavan followed by Raisina Hill on the Rajpath. Past the Indian Gate is the main attraction on Republic Day.
3. But beyond it all, the constitution declares that India is a sovereign, socialist, secular, and democratic republic. It assures its citizens' justice, equality, liberty, and fraternity. It also gives us our rights and duties as citizens.
4. On this Republic Day, I hope that no matter who we are, rich or poor, a powerful politician or a regular citizen, we continue to respect these basic principles and values given to us by our amazing constitution.
