Concrete Technology Lab

Objective: The course aims to train the students in performing laboratory experiments to determine the basic properties of bricks, tiles, concrete materials and concrete.

Area of the Lab: 133.2 sq.m

Details of the Equipment:

- Compression testing machine (CTM-2007)
- Accelerated curing tank can facilities 8 cubes at a time
- Sieve shaker electrical apparatus digital
- Table vibrater
- Rebound hammer

Lab Cost:
