User Manual for Accessing DELNET Discovery Portal

The official website of DELNET-Developing Library Network is www.delnet.in. DELNET networks more than 6300 libraries in India and outside the country. It provides access to more than 3.5 crore records of Books, Journal Articles, etc. A link of Delnet Discovery Portal appears on the website www.delnet.in.

Once you click to New Discovery Portal link welcome page appears of DELNET Discovery Portal displaying the name of the member Institute. You may notice your institution name on the webpage.
(For those Institutions, who have leased-line connection for Internet and have shared their Static/Gateway Ip with DELNET)

For those Institutions who have Broadband connection i.e. non-static IP the access will be made through login/password only.)
Login & Password is provided by the DELNET to the librarian of Member Institute. Once you put login & password, you can see our Main database page for the online services of DELNET. Your Institution name is displayed.

It contains the numerous database offered by the DELNET.
You can access our Union catalogue of books and journals in

Search the DELNET Digital Library Resources

In Advanced Search you may kindly search the books for Inter-library loan and Journals to get the photocopy of particular articles under the Document Delivery Service of DELNET
If you want a book on loan you may kindly search in our union catalogue with different aspects like with the Title and author name or by the subject etc.

For example if you want to find a book through the title. You may just kindly type the title of the book and select the Title in drop-down in “All Fields” and click on the link of ‘Find’ or simply do enter.

Title: - Wings of Fire

You can see number of hits are showing related to your query
For example if you want a book on Mathematics..

Just type mathematics and select the Subject in drop-down in “All Fields” and click on the link of ‘Find’ or do simply enter.
You can see no. of records are here

Choose any one record of book, which you want and click on ‘Get more details’
Click on the link of ‘Request a book’

Now the System is asking for ILL password. ILL passwords has been given by the DELNET to the librarian of member institute at the time of confirmation of Delnet membership.

After the submission of ILL password. You can see that the Name of your institute, address and the name of the librarian is showing here. Now you have to fill some necessary information of the requester like Requester’s Name, Designation and email id etc. In the Message box you may kindly send any message for Delnet like for any specific edition or a volume of the book.
After filling the form do kindly click on ‘sent email’

Now you have successfully submit the book request on loan to DELNET

If you are looking for a particular journal you can search like this in our union catalogue

You can see that this journal is available in our so many institution (we use location code for the name of member institute).

If you want any article. You may kindly write to us, we will provide you the photocopy of the requested article under the DDS-Document Delivery Service of ours. (photocopy charges will be charged for it Rs. 2 for per page)
Here you can see the database of E-BOOKS

Just click on E-BOOKS

E-Books Directory is a daily growing list of links to freely accessible ebooks, documents and lecture notes found all over the internet. You can submit your own ebooks, or add other resources you come across. Look below for the main directory of categories.

This website is now completely redesigned to be accessible to mobile devices with small screen sizes. The look is somewhat different now, but the content is the same.

Welcome! We have exactly 10746 free e-books in 700 categories.

Featured books: October 20, 2018

Main categories

Arts & Photography
- Architecture
- Design
- Decorative Arts
- Drawing
- Fashion
- History
- & Criticism
- Painting
- Photography
- Religious
- Sculpture

Biographies & Memoirs

To Download the book in pdf form just click on ‘Digital PDF’, now you can see book has been downloaded.
1. Introduction: Where We Begin

CLAYTON FUNK

Creativity: Privilege or Human Right?

To create means to produce an action or an artifact; to create means to produce is, by definition, to make something first time. The art of creation means to invent (to coin words, to discover, to imagine, etc.), and the process of making. Depending on the circumstances, creative processes might involve cooperation, collaboration, or conflict. In some cases, the outcome is more important than the process. If you want to know what others are thinking, when you make art, you are often not interested in the final product, but in the process of making it. The process is where the magic happens. The process is where the poetry happens.

What Visual and Musical Forms Are Most Important?

Most of us tend to associate visual and musical forms with varying degrees of power and social status. Walk into most any art museum of concert hall and you might think you had entered a temple. Many museums were once religious institutions, while concert halls are often built to resemble churches. Some say that music and art are the handmaiden of the gods. These are questions that we ask ourselves when we consider what we consider "high art" and the impact it has on our society. The history of art is rich with examples of how art has been used to express ideas, beliefs, and values. It has been used to send messages, to influence thought, and to shape culture. It has been used as a tool for political power, as a way to convey messages, and as a means of shaping society. In the case of American Indians and African Americans, the visual and musical forms that have emerged have served as a means of resistance against oppression, as a way to express identity, and as a means of maintaining cultural traditions.

Who Decides Which of These Forms Are Important?

The hierarchy of visual and musical forms is usually based on the professional expertise of scholars and critics. However, there are many other forms of knowledge, such as the knowledge of the artists, artisans, and performers who create and perform visual and musical forms. This knowledge is often not recognized or valued, and it is often marginalized in the process of deciding which forms are important. It is important to recognize the value of this knowledge and to ensure that it is given the same level of consideration as the knowledge of the scholars and critics.

**Effect of extracellular products extract of cyanobacteria Oscillatoria tenus on micropropagation of date palm Phoenix dactylifera L. cv. “Barhee”**

---

**Abstract.** The aim of the study was to determine the effect of the extract of extracellular products of cyanobacteria Oscillatoria tenus as an alternative or complementary component of the M4 medium prepared for the date palm Phoenix dactylifera shoot proliferation growing by in vitro culture. The results showed that the medium supplemented with a half-strength of MS salts and the extract of cyanobacteria extracellular products (CEP) gave significantly increase of the percentage response to shoot proliferation and rooting, number of shoots, primary and secondary root, fresh and dry weight of shoots and roots, shoot length, number of leaves, and leaf size. The highest number of leaves and highest leaf size were recorded in the treatment of CEP without the MS salts, while the lowest number of leaves and smallest leaf size were recorded in the treatment of CEP with full-strength MS salts. The results also showed that the highest number of shoots and highest shoot length were recorded in the treatment of CEP with full-strength MS salts, while the lowest number of shoots and shortest shoot length were recorded in the treatment of CEP without the MS salts. The results of this study indicate that the treatment of CEP with full-strength MS salts record the lowest values in percentage response to shoot proliferation and shoot length, fresh and dry weight of shoot, total chlorophyll content, K, and phosphorus content. But the medium supplemented with the cyanobacteria extracellular products (CEP) without the MS salts gave the lowest value in number of shoots. While this treatment
You can see the link of Thesis/Dissertations. Just click on the link of Global full-text Thesis and Dissertation.
You can see the Country-wise list of Institutions link are provided here, who are providing the Electronic ETDS.

For example, if you click on the link of “Indian Institute of Science”, you can see the web page of ETD’s of Indian Institute of Science has opened.

• How to access Delnet Online,

Delnet wants its Member Libraries which are more than 4000 in number to make best use of its online resources. In order to facilitate efficient and effective searching of information through the various online databases and union catalogues of Delnet, this brochure has been prepared. It provides stepwise instructions and the necessary procedures. This will help the user in making the search pinpointed and specific by selecting relevant and desired information is received.

Delnet Information resources are bibliographic and full text in nature. Delnet provides the delivery of physical books through Inter Library Loans as and when required by Member Libraries and photocopies of journal articles that are published in Indian and foreign journals through its Document Delivery Services. Besides the ILI, the Libraries have to pay for Counter-Peek and photocopying services. Member Libraries can send the list of bibliographic references of books/journal articles either online or through F-Mail. You can reach us through F-mail at:-<snip>.

How to Search?

Step 1
Go to DELNET Website at www.delnet.mtc.in

Step 2
Click onto DELNET ONLINE option.

Step 3
A new Web page appears which prompts you to enter space or incorrect spellings can stop your access further.

Step 4
Click onto START button which appears on the same page. Just wait for a few seconds to get the authentication done.

Step 5
A new Web page appears showing the logon to DELNET Database. On the left hand frame, you get the abbreviations of the Participating Libraries who have contributed the records to various databases. This is a pointer for giving the full name of the Institutions wherein the material (books, journals, etc.) is physically available. These databases are the union catalogue, union catalogue of books, union catalogue of journals, etc.

Step 6
For Searching Books Catalogue, Journals etc.

If you want to search for any specific book, kindly double-click the Union Catalogue of Books. This database currently has bibliographic information of more than 1.3 Crore books. These books are available in different Member Libraries all across the country and outside India also. The database size of these Union Catalogues grows with each passing day as member libraries are being merged into the system on a daily basis.

Step 7
As you click the Union Catalogue of Books, a new web page appears which asks you to enter space or incorrect spellings can stop your access further.

Example: Let us assume that you want to search for books on “Electrical Engineering”. You are requested to type “Electrical Engineering” in the space provided against Title box. In order to ensure that you get only the book(s) on the subject electrical engineering, then select the option “contains all” from the following five options in the title search: “contains all”, “contains in order”, “contains the phrase”, “contains only”, “includes”. In the search results you will find that the words “Electrical” and “Engineering” will be present in any order. But if you want “Electrical” and “Engineering” to be present in the same order as you typed, then select the option “contains in order”. If you choose the EXACT PHRASE option then the system will look for the exact appearance of Electrical Engineering. i.e. both the words to appear exactly in the title. You can also choose the wildcard searching (right truncation) by choosing the INCLUDE option. However, please note that only a single word can be given in this case of wildcard searching, for example, elect will display the results with the titles wherein words like Electrical, Electricity, Electronic will all appear.

The searching strategies for all the databases are the same. The following is the list of main Union Catalogues. Union Catalogues are:

- DELNET
- E-Books
- Theses and Dissertations
- E-Journals
- E-Awards
- Reference (books)
- Union Catalogue of Books
- DELNET Database
- Document Delivery Services
- Open Source Software Support
- Training Programmes

To explore and access the World of Information, contact your Librarian and write to us.

• Poster of Member Libraries
In Profile of Member Libraries You can see the Addresses/Profile of Delnet Members

Interlibrary Loan (ILL) Regulations

A. Sharable Materials

1. Any type of library material, irrespective of format, which is needed by a member-library of DELNET for its bonafide user for reference, information, recreation, study, research, and instruction, can be borrowed from another member-library of DELNET. The lending library will determine whether the material can be provided keeping in view any regulations or restrictions.

B. Union Catalogues

2. DELNET facilitates the identification of materials that are available with its member-libraries.
3. To expedite identification of materials and promote resource sharing every member-library of DELNET will make efforts to catalogue its materials using international standards as adopted by DELNET and upload such records onto DELNET site for merging them into the Union Catalogues, Union Lists and other databases by DELNET.

C. Interlibrary Loan (ILL) Services

4. Interlibrary loan is a mechanism for resource sharing which member-libraries of DELNET have adopted for mutual benefit.
5. Each member-library of DELNET will actively promote among its library users ILL service.
6. Requested items, which are not included in DELNET union catalogues, should be cited completely and accurately by requesting library. The requests can be sent through email at iansg@delnet.ren.nic.in
7. When items cannot be verified and/or located it will be communicated back to the requesting library.
In the link of **UPLOAD LIBRARY RECORDS**, DELNET Member Institute can upload their data to merge their records in the Delnet Union catalogue online with the help of login & password provided by the Delnet.
