ABOUT THE DEPARTMENT:

The Department of Computer Science and Engineering at the LBRCE was established in 1998, offers Undergraduate Programs - B.Tech in CSE and Post Graduate Program - M.Tech in Data Science. The B.Tech (Computer Science and Engineering) program was started in the year 1998 with an intake of 40 students and the intake was subsequently increased to 60 students in the year 1999, 90 students in the year 2008, 120 students in the year 2009, 180 students in the year 2019, 240 students in the year 2023, 420 students in the year 2024 and 480 students in the year 2025. The M.Tech (Data Science) was started in the year 2023 with an intake of 06 students. Currently, our institute has enabled high speed Internet bandwidth of 2090 Mbps.

VISION:

The Computer Science & Engineering aims at providing continuously stimulating educational environment to its students for attaining their professional goals and meet the global challenges.

MISSION:

1. To develop a strong theoretical and practical background across the computer science discipline with an emphasis on problem solving.
2. To inculcate professional behavior with strong ethical values, leadership qualities, innovative thinking and analytical abilities into the student.
3. Expose the students to cutting edge technologies which enhance their employability and knowledge.
4. Facilitate the faculty to keep track of latest developments in their research areas and encourage the faculty to foster the healthy interaction with industry.

Guest lecture on
Formal Language & Automata Theory in NLP Applications

Resource Person: Dr. Jagan Mohan Reddy Danda, Ex-Employee, Cisco Systems
Name of the organization: GRIET, Hyd
Event date: 24-10-2025

About The Event:

The objective of Formal Language and Automata Theory (FLAT) in Natural Language Processing (NLP) is to provide a strong theoretical foundation for understanding and processing human languages using computational models. It focuses on representing the grammatical structure of natural languages through formal grammars such as context-free grammars and recognizing valid linguistic patterns using automata like finite automata and pushdown automata. These concepts help in developing algorithms for tokenization, parsing, and syntax analysis, which are essential for language understanding and translation task.

Guest lecture on Data Analytics

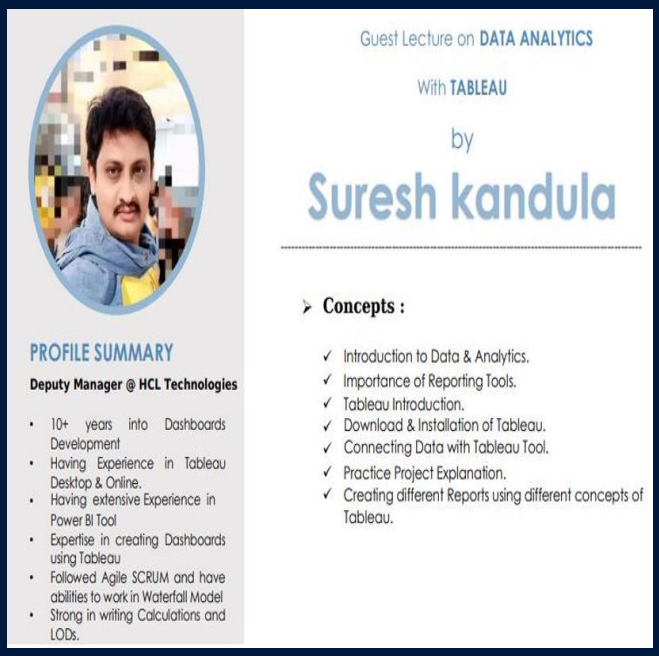

Resource Person: Mr. Suresh Kandula
Name of the organization: Dept. of CSE, LBRCE
Event date: 01-11-2025

About The Event:

The main objectives of organizing the guest lecture on Data Analytics were:

- To enhance students' understanding of the concepts and practical applications of Data Analytics within the scope of Data Mining.
- To provide insights into the latest tools, technologies, and methodologies used in the data analytics domain.
- To bridge the gap between academic knowledge and industrial practices in handling and analyzing large datasets.

To motivate students to pursue research and career opportunities in data analytics and related fields

Industrial Visits and Excursion

IIT Madras Chennai

At IIT Madras, we visited the Computer Science and Engineering Department, Robotics Lab, and AI Research Centre. Professors and research scholars demonstrated ongoing projects in areas such as machine learning, quantum computing, and sustainable AI systems. Students were briefed on research methodologies, innovation labs, and startup incubation facilities at the IITM Research Park.

INDUSTRIAL VISIT AND EXCURSION

As part of our academic curriculum, the Department of Computer Science and Engineering organized an Industrial Visit and Educational Excursion to Infosys Campus, Mysore and Visvesvarayya Technological Museum Bangalore from 16th to 18th October 2025. The primary aim of this visit was to provide students with a deeper understanding of real-world industrial and research practices in the IT sector and to gain insight into advanced technologies and innovations.
