To make the students to develop , deploy and connecting a sample smart contract.

Description of the Event:

This workshop was conducted in three days. In first day, Basic key concepts like definition of block chain, decentralization, network, nodes and miners were covered. In second day, consensus algorithms like POW, POS etc.. and public vs private block chain were discussed. In third day, practical exposure was given on how to create smart contracts and meta mask introduction.

Feedback/ Suggestions:

- Intrested in more workshops like these.
- The way of explaining was good.
- Very informative session regarding emerging technology.
- Need to conduct real time projects on live which will be helpful to gain knowledge on part of it
- Conducting of this workshop in practical way was very much useful for all.
