

English Literature, Linguistics & language teaching research group

English communication has become an essential skill for proving ones employability and efficiency in any field. Hence, it has become mandatory for the faculty of English to be thoroughly equipped with English language communication which is possible only through learning Literature. Day-by-day language teaching is also becoming more and more challenging and it is the need of the hour for the teacher to adopt ICT based, student centred interactive teaching – learning process.

Objectives:

To facilitate the members of the research group a platform where through discussions and presentations share their individual & specific knowledge with all the members in a way to make teaching-learning process more effective.

Group members
