**REVIEWER INSTRUCTIONS AND DUE DATE**

Ms. Ref. No.: MSB-D-20-00736R1

Title: Heterogeneous photocatalytic degradation of organic dyes by highly efficient GdCoSnO<sub>3</sub>  
Materials Science & Engineering B

Dear Dr. Satyanarayana,

Thank you for agreeing to review manuscript number MSB-D-20-00736R1 for **Materials Science & Engineering B**.

If possible, I would appreciate receiving your review by 12/23/2020.

PLEASE DO NOT RESPOND DIRECTLY TO THIS E-MAIL. PLEASE UPLOAD YOUR COMMENTS VIA THE WEBSITE.

IMPORTANT NOTE: If you are attaching a file with your review, please ensure that your name is absent/removed from the document properties of the file. Please check this by clicking on 'file' and on 'properties' or 'document properties' before uploading your attachment.

Please note that, if present, we ask you to include Highlights and the Graphical Abstract in the reviewing process.

To submit your review, please do the following:

1. Go to this URL: <https://www.editorialmanager.com/msb/>

2. Enter these login details:

Your username is: satyamphysics@gmail.com

If you need to retrieve password details, please go to: <http://www.editorialmanager.com/msb>If you still face any problems with log in, please write to [msb@elsevier.com](mailto:msb@elsevier.com) alongwith a SCREENSHOT of the error message.

3. Click [Reviewer Login]

This takes you to the Reviewer Main Menu.

4. Click [Pending Assignments]

5. Click [Submit Recommendation] (in the Actions column)

6. Choose the appropriate recommendation term for the paper e.g. Accept, Revise, Reject

7. Rate the paper by clicking on the appropriate check boxes in the Manuscript Review form underneath

8. Insert your confidential comments to the author (your name will not be released to the author)

9. Enter your comments to the editor (these are not available to the author)

10. Click [Proceed]
11. Click [Edit Review] if you wish to make further changes or [Submit Review to Journal Office] to confirm
12. Click [OK] to confirm your overall recommendation.

For further information on how to submit your recommendation and comments, see: [http://help.elsevier.com/app/answers/detail/p/7923/a\\_id/133](http://help.elsevier.com/app/answers/detail/p/7923/a_id/133)

If you are unable to view the revised manuscript you may need to disable pop up blocker.

In order to disable pop up blocker you must do the following:

1. Go to Tools, pop up blocker and tick disable pop up blocker.
2. If still experiencing problems please check the top of your screen, under your browser box. Internet Explorer displays an Information Bar (just below the address bar) where you can see information about downloads, blocked pop-up windows, and other activities.
3. If you can view this colour bar, please right click on the bar and select Allow pop up blockers.
4. This Information Bar helps you to avoid potentially harmful files that you might otherwise accept from the Internet.
5. You will need to click on this Information Bar, choose Download File, then return to View Submission to open the file.
6. You can also hold the CTRL key while you are clicking on View Submission or View Revision and again while you are clicking Open on the PDF file.

Materials Science & Engineering B operates a manuscript transfer service to relevant title[s] in the field. This service gives authors the option, if they are unsuccessful in their original submission, to decide to have their manuscript transferred to another relevant journal without the need to resubmit or reformat.

We recognize that you are the experts in the field and we want to ensure that our editors fully utilize your comments and guidance. As such, your reviewer reports will also be internally transferred along with the manuscript to the editor of the receiving journal. This will also help to eliminate the risk of you receiving the same manuscript twice.

If you would prefer that your reviewer report is not transferred, you will be able to untick the agreement to transfer box when submitting your review.

Overall with this service we are aiming to help facilitate and develop fast, effective and truly innovative solutions to improve the overall manuscript submission and peer review process for all individuals concerned.

To: Narendra Babu A <narendraalur@gmail.com>

Dear Dr. A,

As we did not receive a reply to our request for a review of "Enhanced electron emission characteristics and backlight unit application of dual-particles-containing multicomponent-blending carbon nanotube cathode", TEEM-D-20-00197 for Transactions on Electrical and Electronic Materials, we assume you must be very busy or on extended travel.

If you are still interested in reviewing the article, please contact us as soon as possible.

With kind regards,

Sung-Jin Kim  
Editor in Chief

**\*\*Our flexible approach during the COVID-19 pandemic\*\***

If you need more time at any stage of the peer-review process, please do let us know. While our systems will continue to remind you of the original timelines, we aim to be as flexible as possible during the current pandemic.

**Date: 08.10.2020**

**To Whomsoever It May Concern**

It is to appreciate the services offered by **Dr. E V Krishna Rao** to Andhra Pradesh State Skill Development Corporation (APSSDC) while training the Students and Faculty. He has spent a considerable amount of time and exhibited utmost patience while delivering the sessions on highly specialized and in demand courses.

**Dr. E V Krishna Rao** has excelled in offering the training on "**Digital Communication & Modulation Techniques**" (28.09.2020 to 03.10.2020) through real time examples which ensured an in-depth knowledge sharing among the students and faculty of different engineering and diploma colleges. He further instilled awareness among the students and faculty on Global Market Trends and latest technologies.

His vast knowledge on the latest technologies and global academic trends is commendable. APSSDC, Govt. of Andhra Pradesh, hereby appreciate his commitment and dedication in delivering the lecture voluntarily and wishes to associate with him for more such training in the future on latest technologies.

We wish him all success in the future endeavors.

## Invitation to International Conference on Energy Storage Technology and Power Systems (ESPS 2022)

---

oliviachiu12 <oliviachiu12@gmail.com>  
To: "samujeer92@gmail.com" <samujeer92@gmail.com>

Fri, Aug 13, 2021 at 8:22 AM

Dear Dr. Syed Abdul Mujeer,

We hope this email finds you well.

2022 International Conference on Energy Storage Technology and Power Systems (**ESPS 2022**) will be held from **February 25th to 27th** in **Guilin, China**. Given the pandemic of Covid-19, the conference will be a hybrid event combining both in-person and virtual experiences.

### Information about the conference

**Website:** [www.icesps.com](http://www.icesps.com)

**Date:** February 25 to 27, 2022

**Venue:** Guilin, China.

**Topics:** Energy Storage, Power Systems

**In view of your solid academic achievement and great reputation, we cordially invite you to be the member of the international scientific committee of ESPS 2022.** As the committee member, you can enjoy the following service.

- a) You could obtain a certificate of "ESPS 2022 committee member".
- b) Your necessary information will be posted on the conference website.
- c) You will receive a **50% reduction** of the page fee if you submit your paper.
- d) You can recommend organizing committees and speakers.

*All accepted full papers will be published by conference proceedings and submitted to **EI, Scopus** for indexing.*

If you have the intention to attend the conference as our committee, please let us know within one week. We are looking forward to your reply and wish you an amazing day.

Best Regards

Olivia Zhao

The Organizing Committee of ESPS 2022

## [ICOFLAST 2021] Review for paper #1570755045 assigned

1 message

---

**ICOFLAST 2021 (icoflast@janabadra.ac.id)** <icoflast=janabadra.ac.id@edas.info>

Tue, 24 Aug, 2021 at 1:52 am

Reply to: ICOFLAST 2021 <icoflast@janabadra.ac.id>

To: Nageswara Gudipudi <gnrgudipudi@gmail.com>

Dear Mr. Nageswara Gudipudi:

The paper "Benefit Incidence Analysis on the Education-Fund-Allocation Decision in Makassar, Indonesia" has been submitted to 2021 International Conference of Environmental Law, Applied Sciences, and Technology. It has the following abstract:

Bantuan Operasional Sekolah (BOS) or School Operational Assistance program is governmental compensation for the underprivileged students across Indonesia. Despite its positive reason of establishment, the mismanagement of the funds, and the inappropriate fund allocation may lead to the ineffective of the program. This research aims to analyze the capabilities of BOS to achieve the target students in secondary schools in Makassar. This study applies Benefit Incidence Analysis (BIA) by questionnaires to the students and a simple interview with the principal of the schools to collect potential information as a confirmation to the findings as well as an initial phenomenon. The result shows that the benefit of BOS for the junior students in Makassar is useful for more than 30% of the poor, inferring it as a progressive policy. However, the program is still far from perfect as the leak of the recipients emerges from the rich students, inappropriate for the program. The government must design this populous program in a specific standard, as the schools' discretion to manage their money could lead to ambiguity in the fund management. The government must also create a ready-to-use budget, as the need for the funds cannot be postponed by the delayed disbursement.

We believe that this paper falls within your area of expertise and would appreciate if you could serve as the TPC member responsible for handling this paper. Please confirm that you have received this assignment and indicate whether you accept at

<https://edas.info/R.php?r=11084034>

Please kindly indicate your choice as soon as possible, but no later than three days after receiving this message.

You can find all your review assignments at <https://edas.info/index.php?c=28782>, using the EDAS user name [gnrgudipudi@gmail.com](mailto:gnrgudipudi@gmail.com).

Thanks again for your help.

Kind Regards,

Title: ANFIS Controller dependent NPC Inverter coupled Induction Motor Drive by passivity based Model Predictive Control.

Author: Wookuttu Venkata Usha; Ankarao Mogili

Journal: Australian Journal of Electrical and Electronics Engineering

Hello Prof. Raja Nayak,

You have been invited to review the paper (Ref: TECE-2021-0219) titled "ANFIS Controller dependent NPC Inverter coupled Induction Motor Drive by passivity based Model Predictive Control." by Wookuttu Venkata Usha; Ankarao Mogili for the Australian Journal of Electrical and Electronics Engineering.

The abstract of this paper is as follows:

In this presented paper the neutral point clamped (NPC) inverter supplied induction motor (IM) by the finite set model predictive control (FCS-MPC) has acquired great consideration now a days, due to its fast dynamics and low switching frequency. Anyhow, the functioning mainly based on the accurate measurement and variables that verifies the control loops and feedback paths. In addition to that, this FCS-MPC challenges a huge number of resources to execute the extensive search, which shows that the calculation load raises exponentially with the enhancement in the shifting states. Pointing at correcting the toughness following the criteria of inevitable testing of noises and parameter fluctuation along with decrement in the computational burden, the strategy of passivity based model predictive control (PB-MPC) has been proposed in this paper. If the standard system is taken into account, the PB-MPC has the identical behavior as the FCS-MPC. In the case of actual implementations, in the place where the disturbances and noises do influence these methods, the PB-MPC surmounts FCS-MPC because of power modeling and damping injection transmitted from the passivity based control (PBC) that assures the asymptotic stability. For validating the stability the Lyapunov function is composed in this presented scheme. Here the proposal of PB-MPC with the speed comparison by the proportional integral controller has been replaced by the anfis controller both the simulation results are compared successfully through the MATLAB software.

If you would like to review this paper, please click this link: <https://www.editorialmanager.com/ajejee/l.asp?i=193609&I=JDFJ1X4K>.

If you do not wish to review this paper, please click this link: <https://www.editorialmanager.com/ajejee/l.asp?i=193610&I=FY8ZNGSA>.

If you accept the invitation, you will be sent instructions on how to view the full paper and submit your recommendation. The deadline for completion of your review will be 14 days from the date of acceptance. To request an extension to the deadline, reply to this email with the date you believe you will be able to submit completed review.

If you do decline the invitation to review this paper, it would be very helpful if you could suggest alternate reviewers. Please write the name and email address of any possible alternate reviewers in the text box provided after you click the link above.

If the above links do not work, please log onto Australian Journal of Electrical and Electronics Engineering Editorial Manager system at <https://www.editorialmanager.com/ajejee/>. Your username is M.Raja Nayak and your password can be set at this link: <https://www.editorialmanager.com/ajejee/l.asp?i=193611&I=7VDMVQ84>.

The Australian Journal of Electrical and Electronics Engineering editorial panel greatly appreciates the work involved in reviewing journal papers, and your assistance on this occasion will be highly valued.

Please note that the review of technical papers counts towards Continuing Professional Development. For more details please see the website of Engineers Australia: <http://www.engineersaustralia.org.au>.

Best regards,  
Stephen Tosin Famakinwa, Ph.D  
Associate Editor  
Australian Journal of Electrical and Electronics Engineering

Request to review paper TMEC-2020-0018 for the Australian Journal of Mechanical Engineering

Engineers Australia Technical Journals <em@editorialmanager.com>  
to me

Ref: TMEC-2020-0018  
Title: Use of palm olein as cutting fluid during turning of mild steel  
Author: S. Debnath; M. Anwar; A. K. Basak; Alokesh Pramanik  
Journal: Australian Journal of Mechanical Engineering

Hello Dr kolli,

You have been invited to review the paper (Ref: TMEC-2020-0018) titled "Use of palm olein as cutting fluid during turning of mild steel" by S. Debnath; M. Anwar; A. K. Basak; Alokesh Pramanik for the Australian Journal of Mechanical Engineering.

The abstract of this paper is as follows:  
Uses of environmentally friendly biodegradable cutting fluid than that of conventional mineral-oil based cutting fluids are foreseen to avoid potential health hazards as well as environmental advert effects. In view of that, experimental research was carried out to evaluate resulting surface roughness and cutting forces using an alternative vegetable oil, namely, 'super palm olein', as cutting fluid on turning of mild steel. The outcomes of the proposed alternative cutting fluid were compared with that of conventional mineral-based cutting fluid (coolant machining) and dry machining. Taguchi orthogonal array was employed to set design of experiments and results were analyzed based on signal to noise ratio and analysis of variance (ANOVA) to rationalize multi parameter experiments, namely, cutting speed, feed rate and depth of cut. It was found that, depth of cut influences most significantly on surface roughness, that is, 49.02% for dry machining, 73.35% for coolant machining and 53.86% for super olein machining. On the other hand, highest contributor to cutting force performance was cutting speed with 51.44% for dry machining, 87.28% for coolant machining and 76.46% for super olein machining. Experimental outcome shows that surface roughness under super olein machining

Dear Dr. kolli:

Original article Manuscript ID JEM-20-0560 entitled "Experimental investigation and performance evaluation of electrical discharge machine using Castrol oil (SE180) as dielectric" has been submitted to Journal of Engineering Manufacture.

I invite you to review this manuscript. The abstract appears at the end of this letter. Please let me know as soon as possible if you will be able to accept my invitation to review. If you are unable to review at this time, I would appreciate you recommending another expert reviewer. Please click the appropriate link below to automatically register your reply with our online manuscript submission and review system.

\*\*\* PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. \*\*\*

Manuscript IEIC-D-20-00398 for review ▾ Inbox x

Journal of The Institution of Engineers (India): Series C (IEIC) <em@editorialmanager.com> Tue, Oct 6, 2020, 11:49 AM ☆ ↶ ⋮

to me ▾

Dear mr. kolli,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Journal of The Institution of Engineers (India): Series C.

Manuscript Number: IEIC-D-20-00398

Title: Performance and environmental studies of a compression-ignition stationary engine under biogas-diesel dual -fuel mode

Abstract: This experimental study investigates the prospective of biogas as fuel in unmodified compression-ignition (CI) diesel engines under biogas-diesel dual-fuel (DF) combustion mode. The premixed air-biogas mixture has been ignited by using diesel as pilot-fuel. The DF mode engine parameters have been investigated with varying the engine load by adjusting the biogas and diesel flow with the individual control mechanism. For the entire tested loads, about 65–69% of diesel mass consumption of the engine has been substituted by biogas under the DF mode. The DF mode consumes lesser friction power than that of the diesel mode. NOx levels have been decreased for the entire loads with biogas fuelled DF mode. The DF mode produced higher CO, HC and CO2 levels to the diesel mode. But, in actual, the emissions are found within the limit of emission norms and the amount of CO and CO2 emissions are found much lower when compared to the large volume of CO2 existence in biogas composition. The maximum thermal efficiency of the engine has been observed about 18.66% lower with the biogas-diesel method to diesel way which can be upgraded through advancing the fuel injection timing. This study confirms that it is feasible to use biogas safely being a renewable gaseous fuel in a CI diesel engine with DF mode without operating parameter alterations beyond medium loads. The engine can run for entire loads under DF mode with the achievement of equivalent diesel efficiency, the operating parameters should be adjusted as per the suggestions of this study.

Title: Performance, emission and spectroscopic analysis of a diesel engine fuelled with binary biofuel blends

Authors: S M Mozammil Hasnain; RP Sharma; Gaurav Dwivedi; Ali Zare; Puneet Verma, PhD

Dear Dhanaraju,

You are invited to review the above-mentioned manuscript that has been submitted for publication in Fuel. The abstract is shown at the end of this e-mail.

Our goal is to provide as rapid a response as possible to our authors. Therefore, please register your response as soon as your schedule allows.

We look forward to receiving your referee report online within 21 days from the day you accept the invite.

If you are willing to review this manuscript, please click on the link below:  
<https://www.editorialmanager.com/jfue/l.asp?i=1414430&l=B3LAEW5I>

After acceptance you will be able to access the full copy of the article to review.

If you are unable, please click on the link below. We would appreciate receiving suggestions for alternative reviewers:  
<https://www.editorialmanager.com/jfue/l.asp?i=1414431&l=PWU7XFJF>

I am pleased to let you know that for any review completed on time, this journal offers a 30% discount on the open access publication fee (APC) on your future submission. This discount can be redeemed by you or any one you would like to offer it to at a selection of Elsevier's gold open access journals and is valid for 1 year. The discount code and the instructions on how and where to use it will be sent through Elsevier's Reviewer Recognition Platform once you have submitted your review report in the timeframe agreed.

Alternatively, you may register your response by accessing the Editorial Manager for Fuel as a REVIEWER using the login credentials below:  
<https://www.editorialmanager.com/jfue/>  
Your username is: [dhanaraju.v@lbrce.ac.in](mailto:dhanaraju.v@lbrce.ac.in)

Note: If you reply by email, please note you may receive an automated reminder before we can register your reply.

If you need to retrieve password details, please go to: <https://www.editorialmanager.com/jfue/l.asp?i=1414432&l=Z83SITKO>

Click on 'Reviewer Login' and then "New Invitations"

You may submit your comments online at the above URL. There you will find spaces for confidential comments to the editor, comments for the author and a report form to be completed.

Please also note that authors have been invited to convert their supplementary material into a Data in Brief article (a data description article). You may notice this change alongside the revised manuscript. You do not need to review this but may need to look at the files in order to confirm that any supporting information you requested is present there.

\*\*\*\*\*

Please also note that authors have been invited to convert methods-related supplementary material into a MethodsX article (a detailed description of their methods). You may notice this change alongside the revised manuscript. You do not need to review this but may need to look at the files in order to confirm that any supporting information you requested is present there.

As a reviewer you are entitled to complimentary access to references, abstracts, and full-text articles on ScienceDirect and Scopus for 30 days. Full details on how to claim your access via Reviewer Hub ([reviewerhub.elsevier.com](http://reviewerhub.elsevier.com)) will be provided upon your acceptance of this invitation to review.

Please visit the Elsevier Reviewer Hub ([reviewerhub.elsevier.com](http://reviewerhub.elsevier.com)) to manage all your refereeing activities for this and other Elsevier journals on Editorial Manager.

With kind regards,

Pietro Bartocci, Ph.D  
Associate Principal Editor  
Fuel.

Title: Influence of Ethanol-Biodiesel Blends on a Small Diesel Engine's Combustion Behavior and Particulate Matter Physicochemical Characteristics

Alexandria Engineering Journal

Dear Dhanaraju,

Thank you for taking the time to review the above-referenced manuscript. You can access your comments and the decision letter when it becomes available.

To access your comments and the decision letter, please do the following:

1. Go to this URL: <https://www.editorialmanager.com/aej/>
2. Enter your login details
3. Click [Reviewer Login]

Thank you again for sharing your time and expertise.

As a token of appreciation, we would like to provide you with a review recognition certificate on Elsevier Reviewer Hub ([reviewerhub.elsevier.com](https://reviewerhub.elsevier.com)). Through the Elsevier Reviewer Hub, you can also keep track of all your reviewing activities for this and other Elsevier journals on Editorial Manager.

If you have not yet activated your 30 day complimentary access to ScienceDirect and Scopus, you can still do so via the [Rewards] section of your profile in Reviewer Hub ([reviewerhub.elsevier.com](https://reviewerhub.elsevier.com)).

You can always claim your 30-day access period later, however, please be aware that the access link will expire six months after you have accepted to review.

Yours sincerely,

Ahmed Elwardany, Ph.D.  
Associate Editor  
Alexandria Engineering Journal

**International Journal of Ambient Energy** <onbehalf@manuscriptcentral.com>

2021, 12:21 PM

to me

01-Jun-2021

Dear Dr Vallapudi Raju:

Thank you for agreeing to review the above manuscript, entitled "Parametric Study and Multi-Objective Optimisation of Engine Behaviour Powered on CNG/Biodiesel Dual Fuel Common Rail Direct Injection Engine to Reduce Engine Emission" for International Journal of Ambient Energy. The deadline for your review is 22-Jun-2021.

You already have an account on the site. To automatically access the manuscript and complete your review, please click on the following link:

[https://mc.manuscriptcentral.com/taen?URL\\_MASK=f10699653c7d4acd9ecaaf129f2271dd](https://mc.manuscriptcentral.com/taen?URL_MASK=f10699653c7d4acd9ecaaf129f2271dd)

On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author." Please be sure to put your comments to the author in the appropriate space.

If you wish to view the manuscript and the review form simultaneously, click on the HTML or PDF icons – the manuscript will open in a new window. Leave the new window open, switch back to the main window, and open the score sheet by clicking on the Score Sheet tab. Follow the instructions for reviewers provided in the ScholarOne Manuscripts site.

I strongly encourage you to elaborate on your review in the space provided. Your specific comments will offer valuable feedback to improve future work. It is essential that you click the "Save" button if you wish to exit the review before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit."

All communications regarding this manuscript are privileged. Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

Please note, to log into your account on the International Journal of Ambient Energy ScholarOne Manuscripts site at <https://mc.manuscriptcentral.com/taen> at a later date, your case-sensitive User ID is [ghanaraju.v@lbrce.ac.in](mailto:ghanaraju.v@lbrce.ac.in), and your password is [https://mc.manuscriptcentral.com/taen?URL\\_MASK=48a49b37ae6b4e3286a54bb1db65499](https://mc.manuscriptcentral.com/taen?URL_MASK=48a49b37ae6b4e3286a54bb1db65499).

Thank you for evaluating this manuscript.

Sincerely,

Professor Hewitt

Thank you again for your support.

Kind regards,

Prof. Dr.-Ing. Martin Kaltschmitt  
Editor-in-Chief  
Biomass Conversion and Biorefinery

Dear Dr Raju,

I would like to invite you to review a manuscript entitled "Combined influence of fuel injection strategy and nanoparticle additives on the performance and emission characteristics of a biodiesel fueled engine" which has been submitted to Cogent Engineering. This involves completing a scorecard and submitting your recommendation, with the entire process conducted via an easy online system. I would be grateful for your expertise in assessing this article.

If you are able to accept the invitation, please click this link:

[Agree to Review](#)

If you are unable to review the manuscript on this occasion, please click this link:

[Decline to Review](#)

Cogent Engineering follows a single-blind peer review process.

Reviewers should not recommend rejection of manuscripts purely on the grounds of perceived importance. This approach allows for a more objective consideration of negative findings, replication studies and new and experimental ideas. For more information about our criteria for publication, expectations of reviewers and our review process please visit the website at <https://www.cogentoa.com/reviewers>. If there is a conflict of interest that will prevent you from providing an unbiased view please let me know as soon as possible.

If you have reviewed a previous version of this manuscript, please note that you should be primarily assessing the revision based on whether authors have successfully made the requested amendments, rather than identifying new issues. *We are collaborating with Publons to give you the recognition you deserve for your peer review contributions. On Publons you can effortlessly track, verify and showcase your review work and expertise without compromising anonymity. [Sign up](#) now for free so when you complete any reviews they can be instantly added to your profile.*

Please find the abstract for the manuscript below for your information. The full paper will be available to read on the online system if you accept the invitation.

In the current study, performance from the biodiesel engine at different injection timing has been studied using waste cooking oil (WCO) biodiesel mixed with cerium oxide (CeO<sub>2</sub>) nanoparticles as additives. Experiments are conducted at normal injection timing (27°bTDC), advanced (30°bTDC) and retarded injection timing (24°bTDC) using B20 fuel blended with 80 ppm of nanoparticles. Studies indicated that advancing the injection timing, results in higher brake thermal efficiency (BTE) and reduced brake specific fuel consumption (BSFC) for B20 fuel with nanoparticles as compared to fuel without the use of nanoparticles. Smoke, CO and HC emissions reduced on progressing the injection timings, whereas delaying injection timing shows decreased NO<sub>x</sub> emissions. By advancing the injection timing and adding CeO<sub>2</sub> nanoparticles to the blend, BTE is increased by 11% and BSFC reduced by 10.2 % as compared to the neat B20 biodiesel operation. HC and smoke emissions are 35.4 % and 19.4 % respectively reduced for advancing the injection timing with the adding cerium oxide minute particles to the fuel as compared with clean WCO ester with the absence of nanoparticles. On retarding the injection timing and with adding cerium oxide nano particles NO<sub>x</sub> emission reduced by 18.8% as compared with neat B20 operation.

Dear Dr. Raju:

RE: Submitted Manuscript "AN ASSESSMENT OF DIFFERENT NANOADDITIVES AND TRIBO-CORROSION WITH WASTE COOKING BIODIESEL USED IN SINGLE CYLINDER DIESEL ENGINE"

Associate Editor: Dr. Mohsen Akbari

Because of your expertise in this area, I would like to ask your advice on a submission being considered by Transactions of the Canadian Society for Mechanical Engineering. The abstract is included for you below, along with the names of the authors.

I would appreciate a response to this invitation to review within two to three days so we may expedite our peer review process. If you are unable to review at this time, I would appreciate you recommending another expert reviewer.

Note we've partnered with Publons to give our peer reviewers official recognition for their contributions. On Publons you can effortlessly track, verify and showcase all your peer review and editorial board activities in one place. Should you agree to review this paper, you will have an opportunity to sign up and have your completed review credited to your profile.

Learn more about CSP and Publons: <https://publons.com/in/csp/>

Or sign up now: <https://publons.com/account/signup/?next=>

Should you agree to review I ask that the review be completed within three weeks.

Click to AGREE or DECLINE

To register your Agree or Decline response, please click on the appropriate link below.

\*\*\* PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. \*\*\*

Agreed: [https://mc06.manuscriptcentral.com/tcsme-pubs?URL\\_MASK=cec02a70711846afb58cd561d729ec2d](https://mc06.manuscriptcentral.com/tcsme-pubs?URL_MASK=cec02a70711846afb58cd561d729ec2d)

Declined: [https://mc06.manuscriptcentral.com/tcsme-pubs?URL\\_MASK=0bc1300ecfc54e41b82157ab2d4f9bb6](https://mc06.manuscriptcentral.com/tcsme-pubs?URL_MASK=0bc1300ecfc54e41b82157ab2d4f9bb6)

Once you accept my invitation to review, you will receive a confirmation email that will contain a link to take you directly to your reviewer page, with no need to log in. On your reviewer page you can find the manuscript by clicking on the manuscript pdf icon.

I realize that our expert reviewers greatly contribute to the high standards of the Journal, and I thank you for your present and/or future participation.

Sincerely,

Dr. Mohsen Akbari

Dear Dr Vallapudi,

Thank you for agreeing to review the revised Manuscript ID EP-20-663.R1 entitled "Improvement of performance and emission in a lean-burn gas fuelled spark ignition engine by using a new pre-chamber" for **Environmental Progress**. I ask that you please try your best to complete your review within the next 2 weeks. I am particularly interested in knowing if the author has addressed the comments of the prior reviewer. Please also provide any additional comments you have concerning the quality of the manuscript, including its written quality, as well as any additional suggestions on ways in which the authors may shorten their manuscript.

For immediate access to the manuscript and score sheet, you may click the link below:

[https://mc.manuscriptcentral.com/ep?URL\\_MASK=d3ca452b53a840e4bbfb9daef3f2f60b](https://mc.manuscriptcentral.com/ep?URL_MASK=d3ca452b53a840e4bbfb9daef3f2f60b)

To access the manuscript at a later time, log in to Environmental Progress - Manuscript Central site at <https://mc.manuscriptcentral.com/ep>. Your case-sensitive USER ID is [ghanaraju.v@lbrce.ac.in](mailto:ghanaraju.v@lbrce.ac.in) and your PASSWORD is [https://mc.manuscriptcentral.com/ep?URL\\_MASK=6028e5d91e9f4aac831a6b9a510ff42c](https://mc.manuscriptcentral.com/ep?URL_MASK=6028e5d91e9f4aac831a6b9a510ff42c).

Once you are logged in, the Main Menu will be displayed. Please click on the Reviewing Center, where you will find the manuscript listed under "Awaiting Reviewer Scores". You can click on the manuscript title from this point or you can click on the "View Details" button to begin reviewing the manuscript. When you are ready to prepare your comments, you will need to return to your reviewer center by again using the link above, complete the scoresheet, and provide comments within the online template. It will be possible to upload comments from a Word document (or similar), but PDF files cannot be accepted for security reasons. Please note: It is essential that you click the "Save" button if you wish to exit the scoresheet before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit". All communications regarding this manuscript are privileged. Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

During the review process, you will be given the opportunity to receive recognition for your review contribution on Publons.com. You can read more about opting in to the Publons services and how this benefits you at <https://publons.com/in/wiley/>.

Thank you for evaluating this manuscript.

Sincerely,

Dr Martin Abraham
