PRAKRUTHI CLUB STUDENT UPLOADED YOUTUBE VIDEOS AS A PART OF SWACH ANDHRA MISSION – PLASTIC WASTE FREE CAMPAIGN

Event Type : The Prakruthi, The environmental club of LBRCE uploaded YouTube videos as a part of swatch Andhra mission.

Date / Duration : 11-09-2019

Resource Person : Nil

Name of Mentors : Dr. Shaheda Niloufer & V. Bhagya Lakshmi

Target Audience : Public -- Videos uploaded in YouTube

Total no of Participants : 10

Objective of the event : Swatchatahi Seva

Outcome of event : Imparted knowledge of importance of cleanliness and hygiene

Description / Report on Event:

Students of Prakruthi Club Uploaded YouTube Videos made by student as a part of Swatch Andhra Mission – Plastic Waste Free Campaign on 11th of September, 2019.

DEPARTMENTS OF AEROSPACE AND MECHANICAL ENGINEERING

- **REPORT ON EVENT : Student Certification Program on Finite Element Analysis using ANSYS from 03-02-2020 to 07-02-2020(Five day program)**

Event Type : SDP

Date / Duration : 03-02-2020 to 07-02-2020 (Five day program)

Resource Person : Vinay Kumar - FEA Application Engineer Veda Engineering Solutions-Hyderabad

Name of Coordinator : A NAGESWARA RAO/NAZUMUDDIN SHAIK

Target Audience : IV-B.Tech STUDENTS

Total no of Participants: (37 Mech+14 Aero)= 51

Objective of the event:

This is an certification program on Finite element Analysis (FEA) using ANSYS and is specially meant for Engineering final students. The Finite Element Method (FEM) is a well-established technique for analysing the structural behaviour of mechanical components and systems. In recent years, the use of finite element analysis as a design tool has grown rapidly. ANSYS is a popular and well recognized general purpose finite element modelling package for numerically solving a large range of problems including static, dynamic mechanical, structural analysis (linear and nonlinear), heat transfer and fluid problems, as well as acoustic and electromagnetic problems. It is widely used in the mechanical, automobile, structural, chemical and aeronautical industries.

Outcome of event :

Introduce to the Finite Element Analysis (FEA) concepts and make familiar with the tools and techniques of the ANSYS software package. This SDP aims at providing **complete hands-on training** on FEA analysis. The SDP will help the participants to develop expertise on various aspects of ANSYS for FEA applications. The SDP serves the purpose of bringing together the engineers from various domains such as Structural, Thermal and Fluid Dynamics fields.

Feedback / Suggestions: Increase Laboratory Sessions, Real time case studies

Day to Day Report
03/02/2020

MORNING SESSION:-

- Session started at 9.30 A.M.
- Registration of participants for the STUDENT CERTIFICATION PROGRAM ON FEA USING ANSYS
- Inauguration of program by principal Dr. K. APPA RAO sir
- Introduction to Finite Element Analysis theory and applications.
- Introduction to ANSYS software

AFTERNOON SESSION:-

- Demonstration on operating ANSYS environment.
- Steps in ANSYS solver
- Participants practiced and interacted with new ANSYS Platform software.

04/02/2020

MORNING SESSION:-

- Session started at 10.00 A.M.
- Briefly explained ANSYS Design Modular Window, how to design model in ANSYS.
- Draw, modify tool bars in Design Modular Window tool bars

AFTERNOON SESSION:-

- Session started at 2.00 P.M.
- Participants performed operations draw tool bars like point, line, rectangular, polygon, and circle

Edit tool options rotate, scale, mirror that was practiced

05/02/2020

MORNING SESSION:-

- Session started at 10.00 A.M.
- Explained various commands types of meshing methods in ANSYS
- Demonstration on 2D and 3D model components are meshed
- Participants practiced 2D and 3D model components are meshed

AFTERNOON SESSION:-

- Session started at 2.00 P.M.
- Demonstrated how to consider and apply Boundary conditions for different models of problems
- Participants practiced mechanical components and aerospace components.

06/02/2020

MORNING SESSION:-

- Session started at 10.00 A.M.
- Explained Rack and gear problem with remote displacement/force options
- Model imported in to ANSYS, performed meshing followed by boundary conditions and solved.
- Finally resultant momentum to drive the gear on pinion founded.
- Participants participated Rack and gear tutorial

AFTERNOON SESSION:-

- Session started at 2.00 P.M.
- Explained different structural analysis problems like bars and trusses with procedures
- Participants participated structural analysis tutorials like bars and trusses

07/02/2020

MORNING SESSION:-

- Session started at 10.00 A.M.
- Explained heat transfer analysis procedure in ANSYS
- Study state and transient temperature distribution steps explained
- Fin pin heat transfer analysis performed
- Participants practiced Fin pin heat transfer analysis using ANSYS tool

AFTERNOON SESSION:-

- Practice session was given to practice all the modules in related to FEA workbenches.
- 3.00PM valedictory started
- Dr K Appa Rao-Principal addressed the gathering
- Certification of course completion was presented to participants.

Title:	Workshop on MATLAB Programming (20 Hours Course)
Number of Participants:	40 Students From Department of AE, EIE, MECH and EEE.
Event Type:	Hand on training and certification program
Name of the organisation:	Department of Aerospace Engineering, LBRCE
Number of Days and Date:	Starts on 26 th August, 2019
Summary of the Event:	Hands on training is given to the students in Matlab.
Outcome from the Event:	<ul style="list-style-type: none">• Knowledge of modern tools• Skill to write code for domain oriented problems.• Industry ready with modern tool• Application of MATLAB in development of solutions.
Feedback Taken from Students:	Students are happy with the content delivered and hands on training by resource person and they are ready to do real time projects.
Action Plan:	Department is taking initiation to give individual or group projects to students to use the modern tool to apply in various fields of engineering.

ABOUT THE INSTITUTE

The Lakireddy Bali Reddy College of Engineering (LBRCE) was established in the year 1998 by Lakireddy Bali Reddy Charitable Trust, whose architect is Er. Lakireddy Bali Reddy. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with orchids and grooves. It is approved by AICTE, affiliated to JNTUK, Kakinada and attained autonomous status in the year 2010. It accredited by NAAC. The institute is certified by ISO: 9001-2015. LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the-art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

ABOUT THE DEPARTMENT

The department of Aerospace Engineering was started in the year 2011. The department offers 4 years undergraduate program, B.Tech in Aerospace Engineering. The department has a team of highly qualified,

dedicated and motivated faculty and well equipped laboratories. The department has laboratories, classrooms, faculty rooms, sophisticated lab equipment's and well versed library. The department has a wide range of teaching activities. The department prepared the graduates to undertake design, research and maintenance activities to choose their careers in Aerospace Engineering.

CONTENTS OF WORKSHOP

The schedule of the program include the following.

- ***Introduction to MATLAB***
- ***Basic commands in MATLAB***
- ***Writing code using MATLAB***
- ***Writing of function program***
- ***Application of MATLAB in domain course***
- ***Introduction to GUI***

Report on workshop

A two-day workshop on Primavera Project Planner is organized in Civil Engineering Department under Mylavaram Student Chapter Civil of IE (I) during 3rd– 4th January in association with CAD/CAM Experts, Vijayawada. Sri S. Prasanna Kumar, Managing Director and Miss K.Joythi acted as resource person from CAD/CAM Experts.

The students were briefed about the fundamental concepts of project management and network analysis that are currently used in project. The project management is suitable in various projects like pipe lines, canal works, Irrigation projects, road & railway networking, waste management etc. In the present scenario for managing projects effectively Primavera software is used for scheduling, calculating the critical path in the Network by assign various resources and responsibilities in the project.

The students were taught the basic steps in using the software through hands-on-practice sessions along with examples. The workshop is fully interactive and all the students participated enthusiastically and got enriched with the technical contents of the subject up to the end session.

REPORT

A two-day workshop on GIS Professional Training is organized in Civil Engineering Department under Mylavaram Student Chapter Civil of IE (I) during 6th – 7th Sept 2018 with Dr K.B. Chari, Director GIS Labs, Hyderabad acting as Resource Person.

The students were briefed about the fundamental concepts of RS & GIS and the several applications that are currently used. The GIS analysis is very useful in identifying suitable locations for pipe lines, canal works, Irrigation projects, road & railway networking, waste management etc. without causing much of environmental damage. It is widely used in the flood and disaster management, assessment of spread of sporadic diseases, environmental impact assessments, urban expansions, town planning etc. Hence GIS analysis is important for the civil engineering students to meet diversified demands of the subject and an exposure to GIS software will also increase the job opportunities to the civil engineering students.

The students were introduced to the widely used **QGIS** software in GIS analysis. The students were taught the basic steps in using the software through hands-on-practice sessions along with examples for working with vectors, raster, mosaicing, creating digital layers, and spatial queries etc. The workshop is fully interactive and all the students participated enthusiastically and got enriched with the technical contents of the subject in the end.

A 2 – day workshop on Sketch up Pro Software was organized for 2nd yr B.Tech civil Engineering Students in LBRCE by IE (I) Student Chapter of Civil Engineering Department during 30-31 August 2019 in association with CAD CAM Experts, Vijayawada. Sri Prasanna Kumar, Manager of CAD CAM Experts, led a 2 member team for the workshop. This workshop is organized as a part of department's objective of introducing latest software available to the civil engineering students.

The resource team introduced all the basic design as well as planning software which are practiced inside civil field. He elaborately explained all the tools and fundamental concepts of sketch up software. Student got exposed to landscape designing, interior and exterior design of sample plan by using warehouse and sandbox tools of sketch up. This software is useful for modern civil engineers to satisfy the customer needs and producing better quality output of planning in short duration and it also enhances chance for getting better job.

The students are given hands-on experience with the software by working on several examples. At the end of the workshop, buildings are designed by students by applying different loading conditions.

A THREE-DAY SHORT-TERM TRAINING PROGRAMME
on
“Selenium Tool: With Hands-On Session for Students”
in Association with Mentors Pool
(13th – 15th June 2020)

Lakireddy Bali Reddy College of Engineering (A) has organized A Three-Day Short-Term Training Programme on “Selenium Tool: With Hands-On Session for Students” from 13th – 15th June 2020. This training program was organized by Department of CSE and have received an overwhelming response with more than 1750 registrations. Out of them, we have shortlisted only 150 participants by giving more preference to the Final Year Student participants from various institutes or colleges approved by UGC/AICTE and affiliated to various Universities across the PAN India.

Date: 13/06/2020

Inauguration:

STTP was inaugurated on 13/06/2020 by **Dr. D. Veeraiah, Professor and HOD, CSE Department and Convener of STTP** along with **Mr. Ankit, Manager, Mentors Pool, Mr. Bhanu Sai, Selenium Tool Expert, Mentors Pool** and **Mr. Shaik Johny Basha, Assistant Professor, CSE Department and Coordinator of STTP.**

Mr. N. Srinivasa Rao, Coordinator of STTP, has welcomed all the delegates and participants to the STTP. In his speech, Mr. Rao has highlighted the main objective and importance of this Short-Term Training Programme. Along with this, he gave a brief intro about how the selection process has done and why we have given preference to the students.

In his Inaugural Speech, **our HOD, Dr. D. Veeraiah,** gave his insights about the Selenium Tool. And, he added that the technology has been evolved from Manual Testing to the Automation Testing. So, everyone should get knowledge on this to test the web applications automatically by using Selenium.

Valedictory Session:

On the Valedictory Session, **our Principal, Dr. K. Appa Rao**, joined the session as a Chief Guest along with **Dr. D. Veeraiah, Professor and HOD, CSE Department and Convener of STTP, Mr. Ankit, Manager, Mentors Pool, Mr. Bhanu Sai, Selenium Tool Expert, Mentors Pool and Mr. Shaik Johny Basha, Assistant Professor, CSE Department and Coordinator of STTP.**

Dr. K. Appa Rao, Principal, LBRCE(A), in his valedictory addressing, thanked every student of STTP and Manager of Mentors Pool, Mr. Ankit for arranging a resource person for this program. And, he thanked our Resource Person, Mr. Bhanu Sai for taking his 3 days of time to our STTP and congratulated the Program Convener Dr. D. Veeraiah and Coordinator Mr. Shaik Johny Basha for organizing the STTP in a successful manner. Further, he appreciated all the Teaching and Non-Teaching Staff Members of CSE Department for promoting such kind of development programme for the students. He also motivated the students about how to keep learning new technologies coming in future for their personal career growth as well as organizational growth.

At the end of the valedictory session, vote of thanks was given by **Mr. D. Srinivasa Rao, Coordinator of the STTP** in which he has been paid his gratitude towards all the participants who has spared their valuable time for attending this STTP. He also expressed the gratitude to the Mr. Ankit, Manager, Mentors Pool and our Resource Person, Mr. Bhanu Sai for giving his valuable time for our participants and sharing his knowledge to them.

Nevertheless, he has given thanks to our Principal, Dr. K. Appa Rao and Dr. D. Veeraiah, HOD, CSE Department, “We are highly thankful to the Principal and Head of the Department for giving a chance to organize this STTP in our campus and hope we will find the support in future also for organizing such kind of activities.”

Resource Person(s)	: Kadati Pradeep, Technology Lead, Wells Fargo India.
Target Audience	: III CSE students
Name of the Coordinator	: Mr. K. Sundeep Saradhi

Objective of the Seminar:

The objective of the seminar is to bring proper understanding about Machine Learning concepts. The seminar includes discussion about various machine learning algorithms along with NumPy and Pandas libraries of python.

Total Participation: 113

Feedback:

- Students requested department to organize various advanced contests to get aware of latest trends around the world.
- Students said that, they got more confidence and interest to learn libraries of python because throughout the seminar the speaker took all real time examples to explain python libraries.

Report On Event Five-Day Skill Development Training Program on “Industrial Automation using PLC,SCADA and IOT ” in association with INDWELL Institute of Technology, Pune

- Event Type** : Certified Training
- Program Date / Duration** : 9th - 13th December, 2019/(Five Days)
- Resource Person** : Mr.Himanshu Kumar , Director, INDWELL Institute of Technology, Pune
- Name of Coordinators** : 1. Dr.J.Sivavara Prasad 2. Mr.P.Deepak Reddy
- Target Audience** : B.Tech Students
- Total no of Participants** : 75

Objective of the event: The main objectives of this Five-Day Skill Development Training Program are: To educate the basic fundamentals of Automation among the students and equip them with employability skills., make them aspiring engineering students with practical knowledge of the Industrial Automation & latest technologies being used to achieve Industrial Automation, drive control and monitoring using IOT

Outcome of event: In this Five day training program the students were able to acquire practical knowledge how to control , design and monitoring an industrial drive by using IOT .

Description / Report on Event: The Department of EEE conducted a Five-Day Skill Development Training Program on “Industrial Automation using PLC,SCADA and IOT ” in association with INDWELL Institute of Technology, Pune jointly organized by IEEE student branch of LBRCE and Association of Electrical Engineers of LBRCE (AEEL),during: 9th – 13th December, 2019 in EEE Seminar hall for B.Tech students of EEE Department of LBRCE.

Inaugural Session:

- The Chief guest Dr. K.Appa Rao Principal ,LBRCE inaugurated the Five day Training Program.
- Dr. K.Appa Rao in his inaugural address, encouraged the students to participate in these types of events to acquire additional skills required for the industry apart from class room lectures. Finally he congratulated the students who have registered for this Five day Training Program.
- The Vice Principal Dr.K.Harinadha Reddy welcomed and given a word about industrial utilisation of PLC,SCADA and IOT controls
- Resource person Mr.Himanshu Kumar in his speech explained about his organization which develops PLC,SCADA systems and is contributing the development of student career.
- Program Convenor, HOD of EEE, Prof.M.S.Giridhar in his address welcomed the Participants, Resource person and Chief Guest. In his welcome address he spoke on importance of Industrial Automation in modern Industrial techniques and controls using PLC,SCADA and IOT.
- Coordinator Dr.J.Sivavara Prasad welcomed and given a word about industrial utilisation of PLC,SCADA and IOT controls

In the First Day, Session-I (FN) was taken by resource person Mr. Himanshu kumar. In this session he has covered the basic theoretical concepts of PLC: Introduction, types, leading hardware and software, logic development, important instructions, Industrial I/Ps & O/Ps, PLC wiring & Industrial project development. In the afternoon session→ the participants are engaged effectively in practicing some applications like flashing, blinking LEDs and serial monitor with digital and analog pins.

On the Second Day Session-I (FN) Mr.Himanshu kumar discussed about HMI/MMI: Introduction, interfacing with PLC, screen development, digital & analog data configuration, analog data scaling, password level, screen display & Industrial project development with practical examples like pushbutton ,counters, timer control. In the afternoon session (AN) Mr.Himanshu kumar discussed about various sensor. Lster, the participants practised with HMI interface.

On the Third Day, Session-I (FN) Mr.Himanshu kumar discussed about SCADA: Introduction, data caling, driver selection and configuration, tag creation and configuration & Industrial project development. In the afternoon Session (AN) Mr.Himanshu kumar discussed with the help of tag creation and configuration & Industrial project development. The

participants. practised with HMI interface with practical examples like pushbutton ,counters, timer control.

On the Fourth Day, Session-I (FN) Mr.Himanshu kumar discussed about ANALOG & IOT INTERFACING PROJECT: Complete interface of PLC, HMI, SCADA, AC DRIVE, AC motor, Digital I/Os with a real Industrial application. In Session-II (AN) Mr.Himanshu kumar discussed about AC motor drive control. Later, the participants, practised with ANALOG & IOT interface with practical examples like timer control transmitter.

On the Fifth Day, Session-I (FN) Mr.Himanshu kumar discussed about AC DRIVES, hardware, parameter setting, speed, direction, acceleration and de acceleration time control of induction motor, interfacing with PLC, multispeed & multi directional control project. In Session-II (AN) he discussed overall concepts of plc,scada and IOT. The Participants. practised with HMI interface, motor controls using IOT, Timer controls,etc.,

During the valedictory session Dr.K.Appa Rao ,Principal presented the Merit certificates to the winners in the competition. HOD of EEE Prof.Dr.M.S.Giridhar felicitated the resource person with memento and Mr. Himanshu kumar presented the Merit certificates to the winners in the competition.

During the valedictory session coordinator Mr.P.Deepak Reddy thanked all the dignitaries, participants and other members who are involved for the smooth functioning of the workshop.

Feedback / Suggestions from the participants:

1. Program duration to be extended for two more days.
2. More number of such programs is to be conducted for improving of practical knowledge

REPORT ON “Two Day Hands on Training Program on PCB Design, Arduino Uno & Raspberry Pi”

Event Type	:	Workshop
Date / Duration	:	13.09.2019 & 14.09.2019 /Two days
Resource Person	:	1.Mr.C.Sudhakar Reddy – SRC e solutions 2.Mr.P.S.Satya Kumar – SRC e solutions 3.P.Ashok Chakravarthy-- SRC e solutions 4.Mr.V.P.S.Harish– SRC e solutions 5.Mr.Y.Chalam Naidu– SRC e solutions 6.T.Vijaya Kumar– SRC e solutions
Name of Coordinator	:	Dr.G.L.N.Murthy
Target Audience	:	III & V Semester B.Tech Students
Total no of Participants:		III Semester Students-169 Nos. V Semester Students-181 Nos.
Objective of the event:		To expose the students to usage of modern tools in the design & development of Electronic systems.
Outcome of event	:	By attending the workshop, the students can be able to perform Mini as well as Major projects, as part of the curriculum. Further, the students will gain knowledge on hardware design related issues that enables them to face interviews confidently.

Description / Report on Event:

The two day hands on training program began with inaugural function by Dr.Y.Amar babu, Head , Department of ECE, Dr.E.V.Krishna Rao , Dean of academics and Mr.C.Sudhakar Reddy from SRC e solutions, Vijayawada in Dr.A.P.J.Abdul Kalam Hall on 13.09.2019. Dr.Y.Amr babu and Dr.E.V.Krishna Rao highlighted the significance of the training. It was mentioned that the students should be equipped with additional knowledge to face the competitive world. Resource person Mr.C. Sudhakar Reddy presented the keynote of the program and asked the students to effectively utilize the same. All the students who participated are grouped based on their priority.

The theoretical session for Arduino Uno was held in Dr.A.P.J.Abdul Kalam Hall for Arduino Uno which was taken by Mr.C. Sudhakar Reddy. The fundamental differences between a microprocessor

and microcontroller were explained to the students. It was told that Arduino is the best platform for dedicated applications covering wide areas and spread more with the evolution of IOT. The practical sessions were held in Microprocessor lab and Systems & Signal Processing Lab. All the students were briefed about the programming aspects of Arduino and projects on working with LEDs, Buzzer, LDR as well as Robot were demonstrated and later practiced under the supervision of Mr.P.S.Satya kumar, SRC e solutions.

The introductory concepts of PCB design were introduced to students in ECE seminar hall. All the students registered were explained about the significance of PCB design and the steps in the design process. The layout and the interconnects should be optimally planned that results in such a board where there exist no problems in near future. A printed circuit board (PCB) mechanically supports and electrically connects electronic components or electrical components using conductive tracks, pads and other features etched from one or more sheet layers of copper laminated onto and/or between sheet layers of a nonconductive substrate. Components are generally soldered onto the PCB to both electrically connect and mechanically fasten them to it. Printed circuit boards are used in all but the simplest electronic products. They are also used in some electrical products, such as passive switch boxes. Mr.C. Sudhakar Reddy, has provided hands on training to students on PCB design in DSD lab.

On the second day of the program students of V semester were trained on three different platforms, PCB Design, Arduino Uno & Raspberry Pi. All the students were grouped as per their priority and have undergone theoretical and lab sessions correspondingly. Mr.P.Ashok Chakravarthy and Mr.P.S.Satya Kumar have provided training to students on PCB design and Arduino Uno respectively in DSD lab and Microprocessors Lab. The demonstration as well as hands on session for Raspberry Pi was held in Systems & Signal Processing Lab. The students were elaborated about the differences between Arduino and Raspberry Pi. It was told that Arduino is microcontroller board while raspberry pi is a mini computer. Thus Arduino is just a part of raspberry pi. Raspberry Pi is good at software applications, while Arduino makes hardware projects simple. The Raspberry Pi is a very cheap computer that runs Linux, but it also provides a set of GPIO (general purpose input/output) pins that allow you to control electronic components for physical computing and explore the Internet of Things (IoT). The students then practiced sample projects. The program ended by asking students to effectively utilize the learned concepts in real time.

Feedback / Suggestions :

1. Better to conduct for more than one day. The allocated time is not sufficient to neither understand theory nor possible to practice more problems.
2. More number of kits should be available.
3. Explanation should be given about how to write programs.

4. Training program should be conducted for either three days or one week so that more practice is done.
5. Instead of practicing same type of problems, different real time problems should be practiced.
6. One day is insufficient to learn both software and hard ware.
7. Theoretical sessions have consumed more time there by which more problems cannot be practiced.
8. Resource persons have not attended each individual batch.

Report for Two day workshop on "Amazon Web services"

Event Type	:	Workshop
Date / Duration	:	23/09/2019 to 24/09/2019, Two Days
Resource	:	R Ram Deep
Name of Coordinator(s):		Mrs. Lavanya. K, Mrs. K. Anu Priya, Mr. V.V Krishna Reddy
Target Audience	:	Final Year Students
Total no of Participants:		61
Objective of the event:		To extend hands on knowledge in Cloud Computing Services especially Amazon Web Services.
Outcome of event	:	Total 60 students participated and gain practical experience on Amazon Web service.

Description / Report on Event:

This workshop is an attempt to train the students with hands on experience web services offered by Amazon. Some of the topics covered in this workshop includes virtual instances creation, maintenance, VPC creation, and Load Balance. Each participant will be allowed to give a participation certificate. The workshop will cover beyond curriculum syllabus and helps to do the projects in final year. In the subsequent events, advanced skills will be dealt. The workshop is planned to impart practical knowledge to the participants. Each day, every session deals with real time applications of the topics. At the end of the course, there will be a programming/assignment test to the participants

Feedback / Suggestions: Suggested to organize this kind of workshops regularly.
