## Industrial Visit Report on **Jocil Limited**

<b>Event Name</b>	<b>Industrial Visit</b>
Event type	Extracurricular activities
Date / Duration	One day (01-11-2025)
Resource Person / Guided By	Mr. Chary, Production engineer
Name of the Co-ordinators	Dr.O.Naresh & Ms.Meghana
Target Audience	MBA II Year Students-SEC-B
Total no of Students	42
About the Event	The industrial visit to JOILC was organized to provide students with exposure to real-time industrial operations and professional work environments. Students observed the functioning of key departments, production systems, and workplace management practices. The visit aimed to bridge the gap between academic curriculum and industry requirements by offering firsthand insight into practical business operations.
Objectives	To provide students with practical exposure to soap, fatty acids, and glycerine manufacturing processes at Jocil Limited and help them understand industrial production, quality control, and supply chain operations through real-world observation.
Outcomes	As a result of the visit, students understood the manufacturing processes of soaps, fatty acids, and glycerine, observed quality control and safety practices, and gained awareness of industrial waste management and sustainability standards. This practical exposure helped them link classroom concepts with real-time manufacturing operations and supply chain activities.
Feedback	Students appreciated the detailed explanation given by the technical team and the opportunity to view each stage of the manufacturing process. They mentioned that the visit improved their understanding of production systems, safety protocols, and industrial quality practices, making the learning experience highly informative and useful.
